State Institution “V. Danilevsky Institute for Endocrine Pathology Problems
of the National Academy of Medical Sciences of Ukraine»

PROTOCOL No. 1
meeting of the Commission on Publishing Ethics
November 9, 2022

Chairman: K.V. Misyura, doctor of medicine, professor, scientific secretary,
Members: O.V. Kozakov, PhD, associate professor, deputy director for scientific and
organizational work, deputy editor-in-chief of the journal "Problems of Endocrine Pathology",
Ye.M. Korenieva, PhD, senior researcher, senior employee of the reproductive endocrinology
lab, head of the IEPP trade union committee,
I.O. Belkina, PhD, head of the sector of scientific and methodical information,
T.M. Berkovska, head of the personnel department.

The composition of the commission was approved by the order of the director of the Institute
dated November 8, 2022, No. 72.

HEARD: violation of publishing ethics and requirements for submitting a manuscript to the journal
"Problems of Endocrine Pathology".

The commission considered the submission of the editor-in-chief of the journal "Problems of
Endocrine Pathology" regarding the violation of publishing ethics and the requirements of the
journal's editors by the authors of the article “Other positron emission tomography/computed
tomography tracers in differential thyroid carcinoma beyond the use of 2-[¹⁸F] FDG” and found that
the authors M. Acuña Hernandez, P. Vallejo Armenta, U. Cancino Ramos, L. Sanchez Orduz, P.
Casanova Triviño, L. Cadavid Blanco, submitting the article to the journal "Problems of Endocrine
Pathology" hid the fact that this article had already been submitted on January 1, 2022 to another
journal, namely Revista Argentina de Endocrinología y Metabolismo; which violated the
requirements of the editors of the journal "Problems of Endocrine Pathology" regarding the
submission of the manuscript. Subsequently, the authors did not inform the editors of the journal that
on 03/04/2022 the article in another journal was accepted for publication, and subsequently
published by Revista Argentina de Endocrinología y Metabolismo [ISSN 0326-4610](https://raem.org.ar/articulos_raem/trazadores-pet-ct-en-carcinoma-diferenciado-de-tiroides-mas-alla-del-uso-del-2-18ffdg-pet-ct/); v. 59(2); p. 6-
12; [https://raem.org.ar/articulos_raem/trazadores-pet-ct-en-carcinoma-diferenciado-de-tiroides-mas-
alla-del-uso-del-2-18ffdg-pet-ct/](https://raem.org.ar/articulos_raem/trazadores-pet-ct-en-carcinoma-diferenciado-de-tiroides-mas-alla-del-uso-del-2-18ffdg-pet-ct/)), which is a direct violation of ethical and publication norms.

The commission established that in two cases the contact person for editorial correspondence
was one and the same - M. Acuña Hernández nandu152@hotmail.com

ADOPTED:

Recommend to the Academic Council of the State Institution “V. Danilevsky Institute for
Endocrine Pathology Problems of the National Academy of Medical Sciences of Ukraine» to
withdraw the article M. Acuña Hernandez, P. Vallejo Armenta, U. Cancino Ramos, L. Sanchez
Orduz, P. Casanova Triviño, L. Cadavid Blanco “Other positron emission tomography/computed
tomography tracers in differential thyroid carcinoma beyond the use of 2-[¹⁸F] FDG”, Problems of
Endocrine Pathology 2022;79(3): 81-89 from the journal.
